

VideoScope XXL

Compact inspection camera with featuring record function

The compact video inspection system is suitable for easy checking of hard-to-reach places in pipes, cavities, shafts, masonry and motor vehicles. The small, waterproof camera head and the long, flexible cable ensure the device is suitable for a wide range of applications over long distances. Illumination with four high-performance LEDs provides clear pictures, even in extremely poor light. Rotation and mirroring ensure the image is always appropriately displayed on the monitor. The device has its own internal memory and an SDHC formatting function for direct transfer of videos and images to a PC.
